

# PRODUCT SPECIFICATION

## 1U Tool-less Blanking Panels

### OVERVIEW

Tool-less snap-on blanking panel is used for install and uninstall the panels quickly compared to conventional Screwed Blanking Panel. The panel can prevent air flow to the unused rack space and avoid thermal short circuit.

### FEATURES

- Highly effective for sealing unused rack space and preventing thermal short circuit
- Easy to install and remove with built-in finger grips on both side of the blanking panel
- Can be used with square-punched, round or tapped mounting rails
- Stackable for easy storage
- Enhance appearance and aesthetic of the racks
- Comply to EIA-310-E cabinets
